Make Millions From YOUR New Financial Trading Skills – You Are The Pilot And I'm Your Navigator!

Today could be **the turning point** in your life you've been waiting for... that is, if you're prepared to do what it takes to get where you want to go. After all, if you're reading this today, then my guess is that something is missing in your life. New 2010 year will come and ask yourself this question “*Am I Ready For 2010?*”.

Do you want to spend more time with your family? Are you looking for another source of income that could help you leave your J-O-B ("just over broke")? Maybe you want to start a "portable" business that you can run from anywhere in the world according to *your schedule* with no employees, no office, and no boss to answer to...

If any of that sounds interesting, then keep reading, because I have some great news for you. It doesn't matter if you're a complete beginner or a seasoned pro in the Forex & Futures markets; and, it doesn't even matter whether or not you currently have a trading method.

Regardless of your personal background and experience level with Forex & Stocks, Global Markets, Forex & Futures, the information I'm about to reveal to you in this letter has the potential to make a profound impact on your life in many ways. My unique world class techniques, which made me the “the only man in history” are applicable across the board of any financial instrument of your choice.

But before I begin, let me just say this: I truly believe that if you're a dedicated and serious individual, **your life and your trading results could change forever after you read this letter**, and you'll never look at trading Forex & Stocks, Global markets and Futures the same way again. And when you fully realize the power and lifetime value of finally becoming an profitable **MILLIONAIRE TRADER** in the markets, you'll never feel the need to listen to another so-called “expert” again, because you'll be empowered to make all the decisions. Keep reading to discover why I'm making these bold statements, and why I think you'll agree with me.

Who should attend Millionaire Forex, Futures & Stock Trading...

If your ambition is to make millions or billions or just to achieve financial time freedom, then you just have to ask yourself one simple question : “Who would you trust most to have by your side in this journey of wealth independence?

- Yourself
- Your local financial institution
- The only man in history to have achieved what I have within financial trading?

Are you a PRIVATE INVESTOR (or want to be one), who is tired of losing money trading financial instruments, but hoping to achieve financial time freedom?

Would it help, if I GAVE you my \$1,000,000 trading techniques and showed you exactly what you have to do to position yourself for that kind of money? I’m going to show you a step-by-step exactly how I did it, and then I’ll teach you the exact strategy I used to make sums beyond your wildest dreams with just a handful of strategies.

Are you a pro FINANCIAL TRADER (or want to be one), who is tired of making making millions for others while being stuck in the rat race or smart as hell, but just can’t seem to get the high-net individuals you deserve under your wing?

Would it help if I showed you how to become the top dog at your firm. I have done it, and I’ll show you the exact way that made me the only man in history to achieve the results I did! (Forget everything you have learned so far. I will change the way you invest...Forever!)

Are you a HIGH-NET INDIVIDUAL (or want to be one), who would rather spend your time doing what you really love, than worrying about wealth growth, preservation and possibly even your legacy?

What if, I took the pressure off all of your investments and provided you the peace of mind it is to have one of the best investors ever in the entire world history manage your wealth as I already do for so many of my clients in North America and Europe.

This is NOT hype, this is training. I am actually going to train you on how to do this stuff and more at.....

Hey, Wait A Sec... Who Is Courtney Smith Anyway?

I used to write a stock trading newsletter - Wall Street Winners. From 1995 until 2000, Hulbert Digest ranked it the number one performing stock trading newsletter. I stopped editing it just a few months later. Cold turkey.

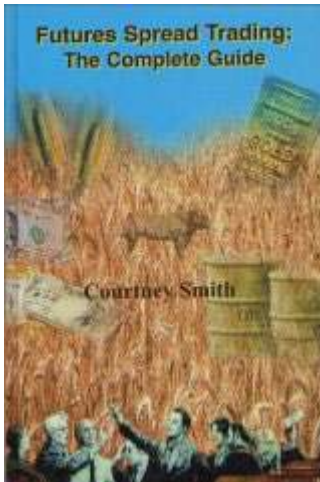

I stopped managing mutual funds and hedge funds. I stopped writing my stock trading and futures newsletters. I went cold turkey.

Why?

There were several reasons. I had accomplished everything I wanted in the financial world.

- ***I had written six books on financial topics and had major publishers publish them (Several are still in print after 20 years! Go to Amazon.com and search on my name).***
- I had held a senior trading management job at a major international bank.
- ***I had held a major research position at a huge Wall Street firm.***
- I had been the CEO of a large futures brokerage firm.
- ***I had been the treasurer of a Swiss bank.***
- I had run my own money management firm.
- ***I had been the Chief Investment Officer of a mutual***

fund company.

The performance of my various ventures was superb.

- ***I ran a hedge fund that was ranked the number one global macro hedge fund for five years.***
- My mutual funds got into the top 15% of their Lipper ranking categories.
- ***My futures newsletter was ranked the best performing futures letter for five years by Hulbert Digest.***
- My stock trading letter was ranked the best performing letter for five years.

I had proven my self in stocks, global markets, and futures. *I didn't have anything else to prove.*

It Sounds Too Good To Be True, Doesn't It?

OK, I understand. **That might all sound "too good to be true"**. If you're like me, you've probably seen some claims by supposed "gurus" that are not only unbelievable, but that make you almost feel embarrassed for the person making those claims.

Chances are, you're probably frustrated, confused, and maybe even a little angry because you feel like everybody is promising you the "moon and the stars", and delivering nothing but "hot air and fluff".

It's OK, and it's not your fault. Those "hucksters and hypesters" should be ashamed of themselves. They're promising you things they know they can't deliver on. And that really burns me up.

So here's what I want you to do when you read this letter. **See if what I reveal to you about Forex & Stock, Global Markets, Futures trading actually MAKES SENSE.** Ask yourself if you can imagine actually doing what I teach you. And see how you feel when you're done with the letter.

You won't find any crazy promises here. Not once do I claim "no losing trades ever". In fact, you'll discover how the most successful traders became successful because they learned the right way to deal with losing trades, and not wasting time and money seeking the mythical "holy grail" system of trading that never loses (it doesn't exist and NEVER WILL).

You also won't find any **"green lights"**, **"red lights"**, or "push button" nonsense that promises to make you money while you sleep. Do you honestly think that stuff exists? No? Good. I didn't think so.

However, what you **WILL** find here is **how to become a MILLIONAIRE TRADER**. You'll see how I reveal to you the actual technical rules and logic behind a step-by-step trading method that finally gives you the power to trade on **YOUR TERMS** and on **YOUR SCHEDULE... while protecting your positions with a built-in "risk shield" at all times**. Whether you want to spend just 15 minutes a day, or hours at a time... the choice is ultimately **YOURS**.

When you're done with this letter, you should be saying to yourself, **"YES. This makes sense."**

Let's continue...

What are the Experts and Students Saying...

Harv Eker is today the world's leading motivational speaker within the financial arena and I recently had the pleasure of sharing his stage in Asia during his "Never Work Again" event, which has seen us successfully conduct the our Futures & Forex Forum in front of hundreds of new students in Singapore, Malaysia, Hong Kong and Taipei. More dates are to follow as the word now rapidly is spreading about my entry into the Asian arena.

As a matter of fact my yearly MasterMind Seminar in Singapore during November 7-8, 2009 had hundreds of students from all over the Asian region and even Europe attended. The MasterMind seminar was also supported by my first **Profitable Pro Trader** seminar in **Jakarta** on **October 24-25**, when I also featured on various Indonesian media for the first time such as **Metro TV, SWA Magazine, Business Indonesia, Kompas, Investor Daily, Jakarta Globe, Financial Wealth** to mention but a few! The last time I opened my secret vault of wealth creation strategies with my private clients, they couldn't believe the amount of resources I've gathered. (This has never been a public event – I have only shared these secrets with clients, who each pay USD49,000/year).

The reason they have left my financial coaching so excited is because.....

(1) **This is a TRAINING** – yes, a real hard-core training on how to do stuff (other people just hook-and-sell” you, telling you what to do but never the how. This is What + How).

(2) I show my entire business and tell you **how to do it for yourself FAST**, and

(3) **I GIVE YOU a comprehensive resource guide (Valued IDR** on my website that shows you ALL of my secret financial techniques allowing you to build your financial investment empire.

So Here Is Why I'm "Spilling The Beans"

Some of my student ask me, "Courtney, why do you spend so much time helping us out?" Good question, indeed. I do spend an awful lot of time answering questions from not only my students, but subscribers to my newsletter, too. Here's the deal – as I said before, **I really do love trading**. No kidding around. I'm what you might call a "**trading nerd**".

And in case you were wondering, it's not just about the money. Sure, I'm running a business, but honestly, I don't need the money from my trading education business to survive. I do asset management for institutions and high-net individual as well as I have a completely separate software business that requires very little of my time and ensures that I never have to worry about money again. So if you pull my trading business completely out of the picture, my family and I are very comfortable. ***We are truly blessed.***

That's why with my trading business I decided to pay my employees very well, and I decided to pack as much value as possible into all my services. I also believe in giving back and donating to my favorite charitable organizations. So I think I'm really lucky and in a unique position because I don't need to put myself through any unnecessary financial stress, which gives me the luxury of taking my time to really help out my students.

I've lived an amazing life so far, and at my age it feels so good to be able to help so many people out from around the world. I think this is my true calling in life, and I'm really glad I'm able to be able to mentor and coach so many traders so that they, too, **have the real potential to achieve the freedom they're looking for.**

Good Trading,

Courtney Smith

P.S. Even if I am half right, you should still end up making a ton of money!
